

“I believe the program helped me **get my position ... the UC Davis name pops out on my resume”**

–Jamie Tyrell, Safety and Training Coordinator at Jelly Belly Candy Company

WORKPLACE HEALTH AND SAFETY MANAGER

About Our Certificate

Studies show that for every \$1 spent on injury prevention, the returns are between \$2 and \$6 ([NSC, 2014](#)). This comprehensive program covers a wide variety of topics, from OSHA compliance to state-of-the-art emergency management techniques. Taught by professionals in the field, our program will empower you to become a proactive health and safety manager that will keep your coworkers safe and help your company save money.

Program Features

- **Experienced instructors**—Learn from experienced health and safety professionals
- **Real-world learning**—Projects and case studies provide dynamic training in best practices and methods for maintaining a safe work environment
- **Networking**—Learn from and alongside peers in the health and safety industry
- **REHS Credit**—If you are a Registered Environmental Health Specialist (REHS), many of these classes will count toward continuing education credit

INDUSTRY FACTS

.....
The median income for health and safety specialists is \$70,210
—Bureau of Labor Statistics

WHAT OUR STUDENTS SAY

.....

“After taking just three [*Health and Safety Workplace Manager Certificate Program*] courses, I am already better equipped to manage potential risk, limit liability and serve the needs of my internal customers. I am making a lasting difference in the lives of my coworkers and I have more confidence in my ability to respond to future challenges.”
–Rachel Pearman, Occupational Health and Safety Student
