University of California  
1333 Research Park Drive  
Davis, CA 95618-4852  
MAY OCCUPATIONAL HEALTH AND SAFETY PROGRAMS
LEARN FROM THE BEST IN THE INDUSTRY! UC Davis Extension offers the Sacramento region's premier training in occupational health and safety. Through individual courses, or our certificate program, learn new skills to create and maintain a safer work environment that complies with state and federal laws and regulations. In addition to real-world learning, our courses also offer exceptional networking opportunities. For more in-depth course information, visit our website at extension.ucdavis.edu/safety. If you have any questions, please contact us at extension@ucdavis.edu to discuss.

OCCUPATIONAL HEALTH AND SAFETY SPRING 2018 COURSES

HEALTH AND SAFETY

Health and Safety Management and Program Development
Explore the various approaches to health and safety management, including but not limited to methods to maintain and summarize program performance, determining the real cost of accidents, behavior modification practices and more. This is a required course for the Workplace Health and Safety Manager Certificate Program. MICHAEL COOPER

Emergency Preparation and Management
Gain insight into being more proactive in emergency preparedness by developing strategies to help prevent and mitigate hazards, as well as for response and recovery efforts. JERRY COUVAS

Health and Safety for Workers: Laws and Regulations
Designed for those interested in or currently responsible for administering health and safety programs, this course teaches the relevant laws and regulations pertaining to occupational health and safety. Case studies and hands-on research provide a comprehensive learning experience. SHELA MCCARTHY AND MIKE POSSON

Environmental Toxics Laws and Regulations
This overview provides insight into the major environmental programs and permitting requirements governing industrial processes and activities. This is a required course for the Workplace Health and Safety Manager Certificate Program. GARY LUCKS

Designing and Delivering Effective Training
Learn how to design, develop, and deliver workplace training programs and use a wide range of instructional methods in this course. Topics include adult learning principles, assessing audience needs, course development, instructional methods, presentation techniques and evaluation feedback. PAULA SHIMADA

Fire and Life Safety Awareness
Discover the types of fire protection features and the fire and life safety hazards common to the educational and workplace environments. This is a required course for the Workplace Health and Safety Manager Certificate Program. PATRICK CHEN

Noise and Hearing Conservation
Protect your employees’ hearing—learn how noise is generated, ways to control industrial noise and how to measure it in the workplace. Learn to choose proper hearing protection services, how audiometry is performed and how to conduct a hearing survey. This is an elective course in the Workplace Health and Safety Certificate Program. MARK CAMERON

Ergonomics in the Workplace
If your employees experience problems with lifting, repetitious motion or overexertion, their improper work practices may cause serious and long-term disabilities. Learn the fundamentals of ergonomics in industrial and office workplaces. Discussions and exercises will focus on problem solving in real occupational situations. This is a required course for the Workplace Health and Safety Manager Certificate Program. SUSAN TINGLEY

HAZARDOUS MATERIALS MANAGEMENT

Health and Safety Refresher for Hazardous Waste Workers - 8 Hours
This course provides hazardous waste-site employees and supervisors with the annual refresher training in health and safety for hazardous waste workers. This course meets training requirements established by OSHA for training under the Hazardous Waste Operations and Emergency Response Standard (1910.120 Q). This course fulfills the equivalent California Standard TB CCR 5192 (j) (5). Participants should first complete the 40-hour Health and Safety Training for Hazardous Waste Workers, UC DAVIS EXTENSION FACULTY.

Workplace Health and Safety Manager Certificate Program
Examine your knowledge of current health and safety issues and regulations, and learn to create and maintain a safer work environment. Examine the issues confronting business, industry and government, and become proactive in managing health and safety programs. Learn about the most current OSHA regulations and methods of compliance, as well as current and future OSHA workplace safety management and workplace training certification examinations. For more information on any of our programs or courses, contact us at extension@ucdavis.edu or visit our website.

WHAT OUR STUDENTS SAY
“I believe the program helped me get my position… The UC Davis name pops out on my resume. – Jamie Tyrel, Safety and Training Coordinator at Jelly Belly Cavity Company

INTERESTED IN TAKING THE CSP/ASPH/QHST EXAMS?
All academic courses in this brochure are designed to help prepare students for the CSP, ASP and QHST certification examinations.
